

Notification of the test result name changes for the Manufacturer's Validation Certificate

Dear Valued Partner,

Thank you for using our products.

We would like to inform you of the upcoming changes to the test result name for the "Manufacturer's Validation Certificate" for Inertsil ODS-3V and Inertsil ODS-4V.

Related Products:

All Inertsil ODS-3V series products

All Inertsil ODS-4V series products

Details of the changes:

Details of the changes are as follows;

| Test Items | After Change | Before Change |
|----------------|------------------|----------------------|
| Pore Diameter | Pore Diameter | Median Pore Diameter |
| Metal Analysis | Metal Impurities | Atomic Emission |

| <i>Manufacturer's Validation Certificate</i> | | |
|--|---------------|--------------|
| Inertsil ODS-3V 5 μ m Lot.No.VQ5- | | |
| | | Inspected by |
| Analysis of Silica Gel | Specification | Result |
| Median Particle Size [μm] | 4.9 - 5.4 | |
| Surface Area [m ² /g] | 420 - 450 | |
| Median Pore Diameter [Å] | 94 - 102 | |
| Pore Volume [mL/g] | 1.00 - 1.10 | |
| Atomic Emission [ppm] | | |
| Fe | < 10 | |
| Na | < 10 | |
| Al | < 10 | |
| Ti | < 1 | |

Impact on Quality and Reliability:

There is no impact on quality and reliability.

We will change the words to be more appropriate and general expression. Please note that there are no changes to the specification range and the test results listed on the Manufacturer's Validation Certificate.

Implementation Timeline:

These changes will be effective from July 2024 production.

Thank you in advance for your continued use and support of our products.

Yours sincerely,

Makoto Suzuki
 Manager, Quality Assurance Section
 GL Sciences Inc.
